## Incident Management Roll-Up Signs

Reflective Fluorescent Pink Vinyl meets retro-reflective standards, provides early, highly-visible warning to motorists and pedestrians, while preventing infringements into an active incident management area.

Roll-Up C-Signs meet both Federal MUTCD, Chapter 6I and National Fire Protection Association (NFPA) Standard No. 1561 and are compatible with all compact C-Stands.

## EZ-Set System

EZ Set sign and stand system offers compact convenience with wrap around storage of the sign to the stand. This system is compatible with the C-Stand lineup.

Available in Marathon and Super Bright Materials

# Roll-Up Warning Signs™

## Roll-Up Types

- **Standard Roll-Up Warning Signs™** are the most versatile choice. Equipped with standard batten-sets, they are best used with a “traditional” roll-up sign holder (found on Eastern Metal Signs & Safety E-Series and X-Series stands, and other manufacturers’ equivalents).
- **Roll-Up C-Signs™** were specifically engineered for use on C-Series Compact Stands™. With a sturdier vertical batten, C-Signs™ allow for optimal wind deflection when mounted on the “Half-Mast” of our fiberglass leaf-spring Compact C-Stands™ (or on another manufacturer’s equivalent).

## Pocket Options

- All pocket types [below] are available on Standard Roll-Up Warning Signs™ and C-Signs™. Choose from Half-Lexan, Full Lexan, Lock-Pockets, K-Pockets or Stitch Pockets. Our signature LOCK-Pockets™ slide open and closed to eliminate the need to bend or bow the battens when inserting or removing them from the pocket.

Optional Warning Flags  
18" or 24" Fluorescent Orange Vinyl or Fluorescent Red-Orange Vinyl, with 24", 30", or 36" staff.

Optional 3-Flag-Holder riveted permanently to the vertical cross-brace.

1" diameter clear Lexan washers used to rivet sign to vertical cross-brace, prevents sign from ripping out. Lexan washers do not rust or obstruct legend.

Vertical cross-brace riveted to back of sign

Lock-Pocket (other pockets available, p.8)

Clear Lexan Backer with four rivets secures slide pocket and does not obstruct legend

Horizontal Brace pivots to easily slide into Pockets

Riveted Center

Stand Attachment Hole for "pin type" mast attachment

Vertical cross-brace slides into and locks in place via Spin Handle Assembly; shown on C-Stand half-mast.

Optional Short Third-Brace is used to attach the Sign to a Roll-Up Sign Holder

OverLays and OverLay provisions are available on all USA-SIGN® brand Roll-Up Warning Signs™. Sewn velcro strips attached to the front of the sign and the back of the OverLay can reduce inventory and increase overall value by giving your signs extra versatility. All of our OverLays are available in the same reflective materials and colors as our Roll-Up signs.

Optional Universal Jaw Clamp affixes to center point of any Roll-Up Sign batten-set.

Optional Roll-Up Sign Storage Cases are heavy-duty vinyl construction. Available for ALL Roll-Up Signs Sizes, with or without sign legend printed on case.

## Rigid Traffic Control signs

We carry a full line of Rigid Traffic Control Signs with the most popular legends in stock. **Our signs meet MUTCD specifications.** All parking signs are a .063 or .080 gauge aluminum with radius corners and 3/8" pre-punched holes. Legends are printed on Reflective Sheeting.
